

# Sonus<sup>®</sup>

## Classic

**T**he Sonus Classic is designed with retro curves and appointments giving this bass a vintage feel. Solid lows, a tight, fat midrange and bright highs define its tone. The 35" scale bolt-on composite neck attached to an ash body adds to the "cut and clarity" of this instrument. A simple, yet extremely functional active circuit allows for boost and cut of bass and treble in just one control, with independent volume controls for each pickup. Coupled with two narrow-aperture dual-coil pickups, the result is a plug-and-play bass with an expressive and flexible voice.

*Sonus Classic 5 in Tobacco burst finish.*
